TRUCK TOOLBOX

for secure storage and transport
of tools and work supplies

for secure storage and transport of tools and work supplies

Truck ToolBox

This durable **Truck ToolBox** provides secure storage for tools and work supplies. The box size enables it to **fit neatly into your truck**. The rigid, **tough construction**, high quality polyethylene and advanced rotational moulding technology provide protection against **mechanical impact and changing weather conditions**. Made from 100 % recyclable materials the **Truck ToolBox is resistant to sunlight and UV damage**.

The **Truck ToolBox** boasts incredibly smooth operation. **Specially profiled edges seal against water and a lid keeps your equipment clean and dry**. Three suitable hinges serve to keep retain lid the open position and ensure **trouble-free opening of box standing by a wall**. Special slots underneath the box or side handles allow easy transportation with a forklift truck. Up to 3 boxes **can be easily and securely piled up** with convenient practical slots.

Equipped with **two steel locks and** an additional padlock the **Truck ToolBox** is the pinnacle of tool protection.

Kingspan Environmental operates in accordance with the ISO 9001:2008 FM no. 57348.

The **Truck ToolBoxes** are covered with a 5-year warranty.
